

**47th Australian National
Tasar Championship 2022**
PORT LINCOLN, SOUTH AUSTRALIA

Measurement and Tasar Class Rules

At the 47th Tasar National Championships to be held in Port Lincoln all competitors and their boats will be expected to meet the requirements of the Tasar Class Rules. Competitors, not Regatta Officials or Measurers, are responsible for ensuring their boats and equipment fall within the Class Rules.

As part of the regatta preparation its important that competitors take time out to obtain a copy of the [Tasar Class Rules](#), to ensure their boat complies. In this regard, while all the Class Rules are important, the following key check points will help ensure a hassle-free event.

- Hull weight correctors fitted – usually around the thwart support post
- Whisker pole length - 2038mm maximum including end fittings
- Forestay measurement - 4140 mm +/- 20mm
- Hounds to deck measurement - 3720mm minimum
- Mainsheet strop length - 240mm minimum
- Shroud pullback travel - 150mm maximum
- Top of jib to hounds fitting - 115mm maximum (Dacron sails only)
- Bow U bolt to forward track end bolt hole (RCB only) - 2130+/- 5mm
- Topmast stiffener present - as per class rules
- Topmast supported by sleeve located in bottom mast – as per class rules

Prior to the regatta local Measurers and/or Tasar Associations will be available to help competitors with any questions they might have about the class rules.

During the regatta, random measurement checks, and inspections will be carried out. A boat selected for inspection shall report to the nominated area upon return to shore and follow the instructions of the Race Committee.

Regatta measurement completed by:

Name _____ Signature _____ Date _____

- It is each competitor's responsibility to ensure their boat complies with the Tasar Class Rules whilst racing. Please note you may be disqualified if your boat does not comply.
- Refer to Tasar Class Rule C.2.1.c re replacement of equipment during the regatta. Should immediate equipment replacement be necessary to continue racing, written permission from the Race Committee may be sought post race, but prior to the next race.
- Random measurement checks and inspections will be conducted at the discretion of the Race Committee. A boat selected for inspection shall report to the nominated area upon return to shore and prior to unrigging (sails may be dropped only but shall still be attached via their halyards). Skipper and/or crew must remain with the boat at all times whilst checking takes place.
