There is one club in Perth with 4 tasars, which is quite exciting. TAWA has now completed its new Google business system setup. You should now see all correspondence coming from our @tasarwa.com.au email addresses. This new system will help the association with succession planning within each role. It provides traceability and continuity of information and gives the association some useful tools to help manage its affairs. The system is scalable so as we move get more use out of the system next season we will grow and develop the how we use the system which is more than just email addresses.
